7/31/09 to 7/31/2013

**COURSE DESCRIPTION**

**Karen Baker -**

The purpose of this course is to identify new drug-related problems encountered in dental practice and to outline practical management solutions. Extensive handouts will supplement discussions of intra-oral drug effects and treatment modifications involving medicated or allergic patients. Throughout the program, primary emphasis will be placed on developing consistent strategies for treating medically complex dental patients. An extensive and very current handout will greatly enhance the chair side value of this fast-paced, comprehensive and practical course.

**Larry Williams-**

This lecture will discuss a variety of areas where dental team members can respond to an emergency in their community. Also discussed will be types of emergency response, preparedness, resources for preparedness materials and education as well as discussion regarding participating in community disaster preparedness.

**ADA C.E.R.P.®** | Continuing Education  
Recognition Program

**ABOUT THE SPEAKER**

Dr. Baker is an Associate Professor in the department of Oral Pathology, Radiology, & Medicine at the College of Dentistry & in the Clinical Pharmacy Division of the College of Pharmacy & has been on the Collegiate faculty for 28 years. She holds a MS degree in clinical pharmacology & therapeutics. She directs the operation of an in-house pharmacy & drug therapy consultation center which serves faculty, staff, students, & patients every clinic day. Ms. Baker lectures both nationally & internationally & has published numerous articles & abstracts. Ms. Baker currently serves on the editorial board of the *Journal of Academy of General Dentistry*.

Dr. Williams is the Department Head of Health Promotion & Analysis at the Navy and Marine Corps Public Health Center. Dr. Williams is a recipient of the FAGD, MAGD & LLSR Awards of the Academy of General Dentistry as well as successfully completing his requirements for the American Board of General Dentistry. Dr. Williams has given many lectures throughout the United States regarding Emergency Response / Disaster Preparedness. Most recently, he has given lectures at the ISDS Annual Session & CDS MidWinter Meeting.

 Thursday, Nov. 11, 2010 at 7:30 PM  
 in the Holiday Inn Restaurant, Alton, IL  
 (Please Notify Dr. Susan Bishop if interested)

- each type of disaster.
1. Define and discuss the Dental Team's role in Disaster Preparedness.
  2. Gain knowledge about how the dental team members can contribute to the safety and well-being of the community during an emergency.
  3. Discuss various disasters which may affect the Community of the Dental Team and how to respond to each type of disaster.

**Emergency Response  
 In and Out of the Office**  
 Larry N. Williams, DDS, Capt. USN

- OBJECTIVES:**
1. Recognize the specific dental treatment modifications necessary to prevent complications in patients with major cardiovascular or central nervous system disorders.
  2. Prescribe and explain antibiotic pre-medication based on new or updated guidelines
  3. Modify dental treatment for patients on new chronic medications for diabetes, asthma, gastro-esophageal reflux disease (GERD), and rheumatoid arthritis
  4. Identify the chronic medications or dietary supplements likely to precipitate major interactions, dental antibiotics, analgesics, local anesthetics, and oral or parenteral anesthesia agents.
